Camera Connector

OVERVIEW

The Camera Connector integrates with up to 4 compatible camera feeds for additional visibility inside and around your vehicles. This self-install accessory enables you to connect side, rear, or interior feeds in addition to Samsara AI Dash Cam feeds. Easily retrieve up to 70 hours of video over-the-air through the Samsara dashboard to protect your company from false blame. Assist drivers in real-time by connecting to compatible in-cab monitors.

HIGHLIGHTS

- Integrate up to 4 third-party cameras into the Samsara dashboard

- Full integration into Samsara platform, including safety events, video retrievals, and coaching workflows

- Retrieve footage from up to 70 hours of drive time

- Quick and simple self-installation

SOFTWARE FEATURES

- On-Demand Video Retrieval: Pulls 1 minute of footage and any duration of hyperlapse video

- Trip Stills: Automatically uploaded every 2 minutes with the option to request additional stills on-demand

- Automatic Dashboard Activation

SUPPORTED VIDEO CONNECTORS

RCA Connector   GX12 Connector
