Questions? samsara.com/support

1

Locate a vehicle's FMS port.

2

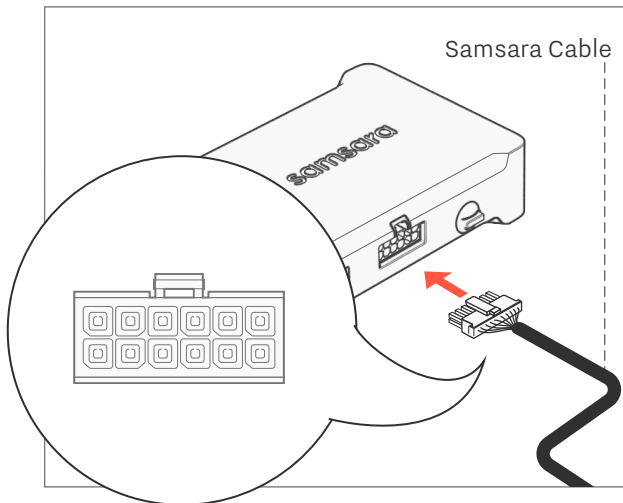

Connect the Samsara FMS Cable.

If no FMS port, hardwire the power and CAN wires. Add a 2-5A fuse to the power wire.

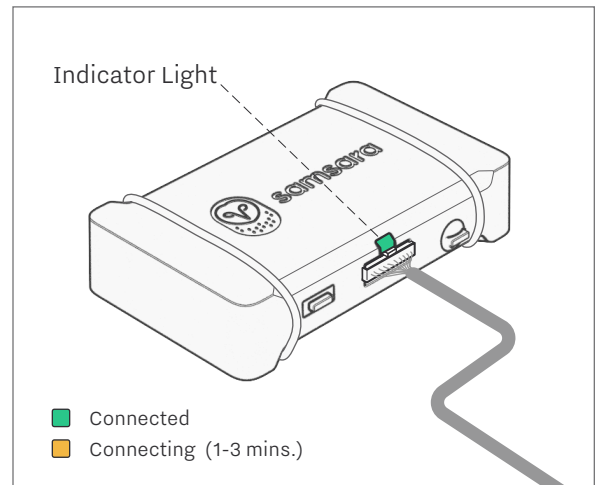

Red: power Black: ground
Yellow: CAN H Green: CAN L

3

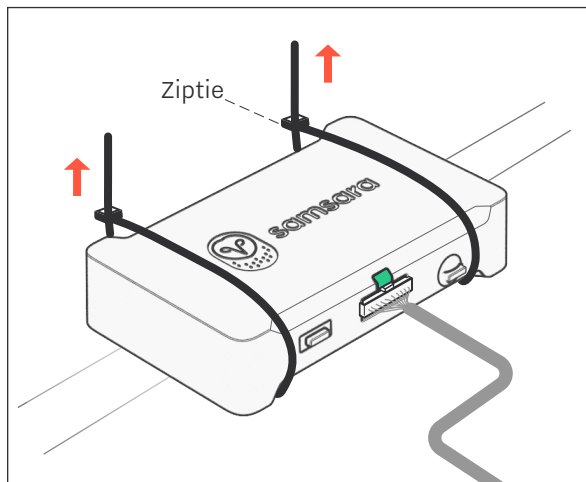

Plug the Samsara Cable gateway connector into the Gateway. It will click when fully inserted.

4

Verify the Gateway indicator light turns green. This could take 1-3 minutes.

5

Fasten connected Gateway in a secure position behind the dashboard using zipties.
